

## **Electric Power Release Procedures**

Due to recent changes with FPL, the inspection procedures below must be followed to receive any release of power to a structure.

1. **Electric Temporary Power Pole:**
  - This is scheduled at the beginning of the project. FPL will be notified by the Building Department after the inspection passes.
  
2. **Electric Permanent Power 1<sup>st</sup> Inspection:**
  - This is scheduled for temporary construction power with 1-2 breakers labeled and all wires safe. The Electric Temporary Permanent Power Request form must be submitted to the Building Department prior to scheduling the inspection. FPL will be notified by the Building Department after the inspection passes.
  
3. **Electric Permanent Power Final Inspection:**
  - This is scheduled for electric temporary permanent power with 90 percent of the electric complete and all wires safe.

Please make sure to schedule all the above-listed inspections in the appropriate order to ensure power when expected.

**Building Department  
Electric Permanent Power Request**

Date: \_\_\_\_\_

Building Permit No: \_\_\_\_\_

Property Address: \_\_\_\_\_

*The undersigned hereby requests permission to connect full electric power to the above-named building prior to the Final building inspection. The undersigned also understands and agrees that approval of this request does not constitute a waiver of procuring a Certificate of Occupancy prior to any type of occupancy including the storage of furniture in the building. Should the building be found occupied without a Certificate of Occupancy having been issued, the Building Official has the right to have the power disconnected.*
